

DPYK SEMINAR

A dynamic introduction to Focus on the Family® Australia's highly acclaimed How to Drug Proof Your Kids® parent program.

The 90 minute presentation is designed to give parents an overview of the drug & alcohol situation in Australia & equips parents with keys to protecting and enjoying their children during their teen years.

How to Drug Proof Your Kids was introduced in response to a cry from parents, schools and the wider community to be equipped with the skills and information necessary to steer their kids clear of harmful drug use.

Although with a focus on 8-14 year olds, this seminar will benefit parents of school age children in general.

Focus on the Family Australia's seminars are a key way for schools, businesses, churches and other groups to work together in a local community to strengthen families and protect children.

DPYK SEMINAR

With a focus on prevention this interactive seminar will cover a range of topics including:

- The reality of alcohol & drug use in Australia
- Strategies for strengthening a parent's influence
- Practical tips on communicating with our kids
- Responding to the issue of alcohol use

Above all, our key aim is to strengthen & encourage parents & caregivers.

“Extensive research shows that parents and families are a vital factor in steering children clear of the harmful use of drugs, including alcohol.”

Dale Stagg National Manager
Programs and Development
